THE GUIDE

# Premium Wedding Albums

## Traditional techniques the modern way.

Folio Albums' workshop is climate- controlled and has specialist lighting to help maintain our stringent standards of consistency and quality. It's staffed by a talented team who take huge pride in crafting beautiful pieces people will treasure forever. Although age-old production techniques are used, Folio Albums applies modern lean manufacturing principles. This reduces the distance between each process to improve both efficiency and quality.

## Carefully crafted in Britain.

Everything produced is handmade to order at Folio Albums' workshop in Yorkshire. The team makes sure each album is truly special – whether you have bespoke requests, want lots of personalisation or just want to be certain you'll get an exceptional finish.

## Sustainability.

Folio Albums believes they have a great responsibility to minimise their impact on the environment in whatever way they can. Folio Albums continually review how they're working and look for new ways to take as little from mother earth as possible, while giving as much back as they can. Folio Albums products are beautiful and are crafted to last a lifetime, but not at the expense of the environment and its delicate global ecosystem. All materials come from sustainable sources and, wherever possible, they're also 100% recycled.

# COVER OPTIONS

The album cover gives the first glimpse of the story that lies within. It sets the scene and remains as a backdrop as the album is held and viewed time and time again.

Choose from beautiful cover materials selected for their quality and eco credentials, including vegan-friendly leathers and fabrics. Be inspired by the colour of bridesmaid's dresses, the flowers of the season itself. Let your creativity loose and select from a range of traditional and contemporary colours, materials ranging from leather to 100% cotton fabrics.

# COVER PERSONALISATION

## Engraved

Using a laser your text is engraved in to the cover material. The process works by removing the top layer of the material to reveal the natural hues underneath. Engraving is available on most materials.

## Black Or White Cover Printing

The latest digital technique in personalisation which involves printing directly on to a material in either black or white ink. Available on most materials.

## Gold or Silver Foiling

Heat is used to transfer metallic foil to the albums for an eye-catching finish. Available on most materials.

## Blind Debossing

Using traditional methods, letters are pressed into the cover without ink or foil for an elegant, classic presentation that's wonderful to the touch. Blind debossing is mostly available on Leather/Vegan Leather options.

# Ready to order

## THE NEXT STEPS:

1. Choose your favourite images! You can favourite these on your online gallery for me to see. I recommend choosing around 80 images (based on a 15 spread album). Of course you can have more than this, but I'd recommend adding on extra spreads.
2. Then I will personally design your album for you and send it back for your thoughts.
3. Once you are 100% happy with the album, it's time to finalise the cover and personalisation options you want to go for.
4. Then it's time to order your precious heirloom!!
